Oh brother, I'm tired  
My courage gone away  
My gun it won't fire  
And my legs can't bear this weight

I want to run far  
So far from this place  
Where the grass grows tall  
I can hide beneath the blades

Put me out to pasture  
I don't want to live on this battlefield  
Put me out to pasture  
I don't want to live on this battlefield

Oh brother, I tried  
I can't see it anymore  
Now I forgot why  
Oh, who I'm fighting for?

I want to lie down, my memory erased  
Upon the soft ground  
I can feel it's warm embrace

Put me out to pasture  
I don't want to live on this battlefield no more  
Put me out to pasture  
I don't want to live on this battlefield

And then the sun upon your face  
And the silent wind pushed across the plains  
How long must I wait?

Put me out to pasture  
I don't want to live on this battlefield no more  
Put me out to pasture  
I don't want to live on this battlefield
