Last day of summer
The best 90 days of the year
Final year of high school
Before we pack up and get out of here

We must enjoy and make the most of this year
Because soon after we graduate
And go our separate ways
This will all be just a memory
And memories in time tend to fade
Fade away

20 years now I may not
Remember your name
But believe me when I say
That I am thankful that you came

Into my life to help and watch me change
To watch me grow
I just want you to know
That from the bottom of my heart
And you know who you are
Right now and forever more
I say thanks

This is our final year of high school
Eleven years and its turn our now
We are the seniors and it's our time to shine
The time to lead by example is now
So let us offer mentoring, support, guidance to those
who need it
Use our experience to show them how it's done
And when you're finally handed your diploma
And every one's congratulating you on a job well done
Where ever you go from here
Just remember
We were seniors together
We are the senior class of twenty-eleven
The senior class of twenty-one-one
