I see your eyes
Under your disguise
True blood inside
Now everyone stares

Ooh, and I'll taste the sun
Ooh, your heartache undone
Gotta leave this cage
Gotta break out, woah oh
Gotta leave this race
Gotta break out, woah oh
And it feels like
The time is right now
It all screams loud
Don't miss the show!

Restless for thousand years
Degraded by the fears
Broken but undefeated
Now everyone will see

Gotta leave this cage
Gotta break out, woah oh
Gotta leave this race
Gotta break out, woah oh
And it feels like
The time is right now
It all screams loud
Don't miss the show!
