If you told me that you would be there
Would you meet me on the other side
If I was forced to live incognito
Would you give me one place to hide

These dumb slumps do or die
I don't have my alibi
You know I can make you cry
Do you want another fight
Hang me for the love
I know that I've got enough
Any game I'll call your bluff
So tell me who you are

I don't know where I'm going
But I know I'll have people
Following me and doing just the same
And just the same

I don't know where I'm going
But I know I'll have people
Following me and doing just the same
And just the same

If you're thinking that you've figured it out
Would you come along for the ride
If I was a monster trapped in containment
You better believe that I'm staying alive

These dumb slumps do or die
I don't have my alibi
You know I can make you cry
Do you want another fight
Hang me for the love
I know that I've got enough
Any game I'll call your bluff
So tell me who you are

I don't know where I'm going
But I know I'll have people
Following me and doing just the same

And just the same

I don't know where I'm going
But I know I'll have people
Following me and doing just the same
And just the same

A war is waging
There is a sound
A match will be struck
And burn you in to the ground

I don't know where I'm going
But I know I'll have people
Following me and doing just the same
And just the same

I don't know where I'm going
But I know I'll have people
Following me and doing just the same
And just the same

I don't know where I'm going
But I know I'll have people
Following me and doing just the same
And just the same

I don't know where I'm going
But I know I'll have people
Following me and doing just the same
And just the same
