Wanna love you more and more
Wanna keep you oh so close
It's not easy, not easy
Boy I love you oh so much
I always need your tender touch
It's not easy, it's not easy

Love me boy
Your tender kisses delight me
Love me baby
You live in my heart
Love me boy
Your tender touch makes me want you
Love me baby
Don't play with my heart
You make my soul sing

La la di da dah

Yeah I just wanna know if this is true feelings.
Can't wait to be around you every minute.
Baby boo life with you is so amazing
I can take you anywhere cause you deserve it
Spend all my money on you, just call me.
I will be around for you till early morning
As long as I make you happy no worries
Give me a little space to show you more loving
Now come to daddy

I really do believe we are blessed with each other
Nobody else, you're my number one lover
Come rain, sunshine I'll be your umbrella
Love that I got for you is more than a mountain
Never gonna make you cry, please believe me.
Let me hold your hands and treat you like a lady
Never wanna miss a pin of your loving
Move your hips, like your body is calling
You are so romantic

You make my soul sing la!
Keep pump it up!

La la di da dah
La la di da dah
La... la!

I want you to hold me tight
Wanna give you all my life
It's not easy, not easy

Our love was at first sight
Wanna share a love divine
It's not easy, it's not easy

Love me boy
Your tender kisses delight me
Love me baby
You live in my heart
Love me boy
Your tender touch makes me want you
Love me babe
Don't play with my heart
You make my soul sing

La la di da dah

La la di da dah
La la di da dah
La la di da dah
