We were the best of friends  
Before your new boy friend  
So many years have past  
He can kick my ass  
Since your new crowd  
I haven't seen you around  
Never thought I was weak  
Cause I never stop to think

She was a girl I used to know  
She was a girl I used to know  
I knew her yeah  
Four years ago  
(Four years ago)  
One thing has changed since then  
One thing has changed my friend

She's still as hot as before  
But she doesn't like me  
(Anymore)

I remember when we where friends  
That memory has to end  
Everything felt so right  
We'd hang out every night  
But it has all changed since then  
You don't even want to be my friend  
Never ask to be  
Just be here with me

Chorus
