You know that it's chemical
And darling this is physical
But when I look at you
I know that this is probably, probably true

And you know that there's plenty more
Of fish in the sea
But I'm not really sure
If there's any quite like you
That do the things you do
So I'll just stay at home

Cause in everything I do
And you know that it is only you
Cause in everything I do
And you know that it is only you

You know that I'm letting go
Of every little thing I'm not so really sure
And I'm doing it for you
I hope you want it to
And I won't let you go

And you know that there's plenty more
Of fish in the sea
But I'm not really sure
If there's any quite like you
That do the things you do
So I'll just stay at home

Cause in everything I do
And you know that it is only you
Cause in everything I do
And you know that it is only you

And you know that it's chemical
And darling this is physical
But when I look at you
You know that this is probably, probably true
But when I look at you
You know that this is probably, probably true

But when I look at you
You know that this is probably, probably true
