"Fire Away"

Oh, do you know who your fuckin with?
My capabilities are far from the usual
So back the fuck up and stay in line
Unparalleled, I'm one of a kind

I am looking forward to burying you
Underneath my tracks
My war path will bring you to your knees
Bring you too your knees, so

Grab your guns and grab your knives
I am stronger than these lies
Ready to take your aim so just fire away, just fire away
Grab your guns and grab your knives
I am stronger than these lies
Ready to take your aim so just fire away, just fire away

I hope you brought your ammunition
You can try to gun me down
Surrender!
When I release the wrath of this
Catastrophe, my masterpiece
Disaster leash, cut loose to bash the teeth
Of the belief, you'll be deceased
To say the least.

Bring your guns
Cause you can't take me down.
Bring your guns
Cause you can't take me down
Ha ha ha!

Grab your guns and grab your knives
I am stronger than these lies
Ready to take your aim so just fire away, just fire away
Grab your guns and grab your knives
I am stronger than these lies
Ready to take your aim so just fire away, just fire away

I bring it down, down, down
You know what I do

I don't even have to bring it to ya
All I gotta to set it down
All you want to do fuck around
Well fuck around and get

Fucked upside down!
Get fucked upside down!

Oh my god, hahaha let's turn it up!
Yeah!

Fire the cannons
I'll aim at aim at your throat
I am the invasion force
I'm coming for the top
You can't stop me now

Grab your guns and grab your knives
I am stronger than these lies
Ready to take your aim, fire away!
Grab your guns and grab your knives
I am stronger than these lies
Ready to take your aim and fire away, and fire away
