"Your Scene Is Dead"

Visit "[Your Scene Is Dead](#)" on MotoLyrics.com

Your scene is dead
Blood stained red

Your scene is dead
Blood stained red
Your scene is dead
Blood stained red

Come get me out of this place
I just can't stand the taste
It's so sickening some how
There goes your fuckin scene right now
Come get me out of this place
I just can't stand the taste
It's so sickening some how
There goes your fuckin scene right now

This can't be stopped
This can't be stopped
I will stand tall and break this empire
I can't be stopped

Now!
Ahahaha!
I am the solution to this disaster
That you call home
Decimate, conquer, and control
Hunger!

Come get me out of this place
I just can't stand the taste
It's so sickening some how
There goes your fuckin scene right now
Come get me out of this place
I just can't stand the taste
It's so sickening some how
There goes your fuckin scene right now

Maybe you didn't hear me loud enough the first time
Let me say it again!

Your scene is dead
Blood stained red
Your scene is dead
Blood stained red

This can't be stopped
This can't be stopped
I will stand tall and break this empire
I cannot be stopped

Tonight you fall
Tonight you fall
This is the solution
Bring the ruin
I will rule over this land
Break the foundation
Create catastrophe

Tonight you fall
Tonight you fall
Into dismay, into disarray
Tonight you fall
Tonight you fall
Into dismay, into disarray
We will rule over these centuries
