Iâ€™ve been searching for an answer all my life, you know...

Iâ€™ve been looking for an Angel that could save my soul.

But until I met you
could not find my own piece of heaven in this world.
Now I know that itâ€™s true,
Love looks a lot like you.

I was blind for many years you showed me that I can see
and Iâ€™ve gone so many places chasing my sanity...

But until I met you
could not find my own piece of heaven in this world.
Now I know that itâ€™s true,
Love looks a lot like you.

Bridge: After so many years
I finally found my twin soul.
After so many heartaches
thereâ€™s someone in this world
that makes me loose control.
