I think about the day that I met her
She stopped me dead in my tracks
Not a chance I ever forget her
There'll be no turning back
Even though I didn't know her
That didn't matter to me

She got a way about her
That I understand
Ain't gonna live without her
So baby take my hand

I'm lost inside amazing eyes
Of diamond blue
I'm hypnotized, I'm mesmerized
She knows it's true
I realized
She can't disguise
She feels it too
Diamond blue
Oh, oh
My diamond blue

I can't escape
The spell that I'm under
I don't know what to say
I lie awake, I wait and I wonder
If she'll be coming my way
I'm gonna tell her when I see her
She's all that matters to me

She got a way about her
That I understand
Ain't gonna live without her
So baby take my hand

I'm lost inside amazing eyes
Of diamond blue
I'm hypnotized, I'm mesmerized
She knows it's true
I realized

She can't disguise
She feels it too
Diamond blue

I feel like I've been dreaming
Since she came around
This love's got me so high
My feet don't touch the ground
Sometimes I wonder if this love was meant to be
My heart is saying this girl is meant for me

I'm lost inside amazing eyes
Of diamond blue
I'm hypnotized, I'm mesmerized
She knows it's true
I realized
She can't disguise
She feels it too
Diamond blue
Diamond blue
Diamond blue
Diamond blue
