Been thinkin' 'bout changing my Facebook status  
Wonder how that'll make people look at us  
All the assumptions they'd arrive at  
Pretty soon nothing we did would remain private

CHORUS

Gotta let everybody know sooner or later  
Don't need help to spell it out  
Don't [D9] need a word generator  
Just log me on, privacy gone

Learning me some Facebook psychobabble

Finding me a double triple score in Scrabble  
Taking time to wash my online Coupe de Ville  
Should I ought to water crops in Farmville?

CHORUS

It's a time suck but lots of fun  
Once you start you're never done  
Kiss my apps I'm cyberstalked  
Which one of my so-called friends do I have to block?

CHORUS

Repeat 1st verse

CHORUS
