### "Take A Chance"

Sun chases moon across the sky  
They dance their dance as you and I  
Find what we will be  
What's right for you and me

Take a chance, give and take  
Take a chance, hearts may break  
Take a chance, make no mistake  
Gotta take a chance for love

Birds turn cartwheels in the sky

A love embrace in flight  
Free fall then part  
An end and a start

Take a chance...

Flowers wait till night is done  
Then seek rays from the sun  
Like petals that unfold  
Our story will be told

Take a chance...
