When it all comes crashing down
And you feel no one around
Baby girl, don't hide, hold your head up high
Cuz you know I catch you before you hit the ground

The words cut deep I know
And the pain will shortly go
But your wounds will fade with every step you take
So please know you're not alone

And in time you will see
The best that you can be

Oh, the weight is heavy now
And your mind is troubled with doubt
I know, your faith is gone but keep racing on
'Til you break free of the ground

And in time you will see
The best that you can be
Oh in time you will see
Oh the best, oh the best
The best that you can be

It's so hard, so hard, for you
You lost control
It was never as easy as it was
With all these problems at the door
So why don't you run away
And I've found what I've been missing lately
You're the only one that can be my rescue
The reason why my heart's so vulnerable as hell
There's nothing wrong with the way I light up when
you're around
'cause it's me and whoever and you know we won't
remember
(Do anything you want but don't keep me out)
And how do we find ourselves
When this world brings so much pain
Relapse again
And you're my favorite fix

And in time you will see
The best that you can be
And in time you will see
The best, oh the best
The best that you can be
