"All Of My Life"

All of my life I have been waiting
For just one boy
And all of my life I have been waiting
For all the joy of having

(*) Someone that I can call my own
Who'll come to my side when I am all alone
And now you are here and I've found a whole new
world
Has opened for me
A world filled with joy
A world filled with all your love
Eternally

(**) For you say you're mine
You'll love me all the time
Night and day
Come what may, and all of my life
You'll be my own

I just want

Repeat (*)
Repeat (**)
