I've been livin' memories lost in the warm of your smile  
Driftin' through the dreams we used to share  
Thinkin' 'bout the times we spent in love without a care  
And wishin' you were there

(\*) So darlin' if you should feel you're lonely tonight  
And you need someone next to you to hold you tight  
Just call me and I'll be there by your side  
Cause we can put that feelin, back inside us  
If we try

Summer time was feellin' good holdin' the world in our  
hands  
Seemed like what we had was growin' strong  
Never even crossed our minds that love would soon be  
gone  
I guess that we were wrong

Repeat (\*)

So darlin' if you shoul feel lonely tonight  
And you need someone next to you to hold you tight  
Just call me and I'll be there by your side  
Cause we've got all those memories to guide us  
And we can put that feelin' back inside us  
If we try
