There's always one of the girls that all
The guys dream about
And you hold her in your heart
Imagining how you'll work it out
So you meet her ev'ry place you can devise
'Cause from the start you knew
The one she wants is you

I know it's right when it comes as easy
As apple pie
When you just can't do it wrong
She's going for ev'rything you try
If she chose you over all those other guys
It must be luck or simply fate
But it's sure worth the wait

That's the way I feel about it
And theres no one who should ever doubt it
You can't stop a star
When love is on the rise

That's what I believe
Love could be 'round the corner
All you've got to do is dream
And never compromise
That's what I believe

I found the world in my arms the moment
I lost my heart
And the bond is much too strong for
Anyone else to put apart
So I cherish ev'ry moment that she's near
You see the best things in your lives
If you just close your eyes

That's the way I feel about it
And she maybe out there
Waiting just like you
'Cause at the strangest time and place
You'll find you're face to face That's the way I feel
about it
