(Edyta) I will never be ashamed for having loved you
I will always weight you like my name
You're in every breath I take, every promise that I make
With every tender touch our life can change
(Jose) I will never be the same for having known you
When forever comes I'll still be by your side
Like the shore can never be as it was before the sea
Without our hope how can we survive?

Chorus:

(E) We have faith, we believe
(J) Surely there must be some hope for us, hope for us
(E) Another place, another time
(J) Somewhere we will find some hope for us
(E) Hope for us
If the world could take a moment to remember
(J) That the love inside is all we need to live
(E) Then when all is said and done
(J) There'll be hope for everyone
(together) The greatest gift of all we have to give

Chorus:

(J) We have faith, we believe
Surely there must be some hope for us, hope for us
(E) Another place, another time
Somewhere we will find some hope for us
Hope for us
(J) Somewhere there's a place with hope for us
(E) Hope for us
(J) Somewhere there's a better place, I know, for us
(E) I know, for us
(J) Somewhere there's a place with hope for us
If my heart can prevail
(E) And your soul can lead the way
(together) We have faith, we believe
Surely there must be some hope for us, hope for us
Another place, another time
Somewhere we will find some hope for us
Hope for us
Another place, another time
We still believe we'll find some hope for us
Hope for us
Hope for us

If the world could take a moment to remember
