

## Ready Never "Tell Me"

Visit "[Tell Me](#)" on MotoLyrics.com

I know that your time is much more precious, more  
important anyway  
You take time to look around you notice but now it may  
be too late

So tell me what you want so tell me what you've done  
with you and me  
So sing another song so sing another song 'bout you  
and me

And now I'm lost and we are empty  
At any cost we try so gently  
And three rounds in one day  
I feel that our condition is not safe

So tell me what you- so tell me what you want  
So tell me what you- so tell me what you want  
So tell me what you- so tell me what you've done

You say that you listen to me, "listen", I do wish it were  
that way  
But what I tend to seem to notice is that your one  
condition is its always gotta be your way

So please put down the phone  
So please put down the phone, I'll count to three  
We need to get along, we need to get along, ya you  
and me

And now I'm lost and we are empty  
At any cost we try so gently  
And three rounds in one day  
I feel that our condition is not safe

So tell me what you- so tell me what you want  
So tell me what you- so tell me what you want  
So tell me what you- so tell me what you've done
