Everything looks bright,  
Standing in your light,  
Everything feels right,  
Whats left is ah out of site  
Whats a girl to do I'm feeling you, you're on my mind  
I wanna be with you  
'cause when you're standing next to me  
Its like wow  
And now your kisses to seem to set me free  
Its like wow  
And when we touch it's such a rush  
I cant get enough it's like its like

CHORUS  
oooh, hey  
what?  
Its like wow..  
oooh hey  
What?  
Its like wow!  
oooh hey  
what?  
Its like wow!  
oooh hey  
What?  
Its like wow!

Should I hesitate when it feels this great?  
Don't wanna make a big mistake  
Don't wanna make you think I'm playing games  
I'm just trying to say  
I wanna be with you  
'cause when you're standing next to me  
Its like wow  
You know your kisses seem to set me free  
It's like wow  
And when we touch it's such a rush I cant get enough  
It's like Its like

CHORUS

Fascinated by your love,  
You know it's all I'm thinking of  
Never waited long enough  
My mind and heart are all mixed up  
Feeling higher than a cloud  
All my senses are like wow  
Oooh hey  
What?  
It's like wow!

you know it's all I'm thinking of  
it's like it's like

#### CHORUS

It's just like wow-you know its all I'm thinking of  
Like wow  
Everything feels right  
just like wow-everything feel right  
just like wow  
all my senses are alike  
Like wow  
baby baby baby the way I'm feeling you is like wow
