Fifteen years old and already on your own  
A house that isn't happy doesn't feel much like a home  
So you take things in your own hands, you're making  
your own choices  
Gave up trying to talk to them cause they wouldn't hear  
your voice  
Fifteen going on forty, but nowhere near grown up  
Between a rock and a hard place the situation sucks  
You aren't the first to be there, you sure won't be the  
last  
Catch 22, your future shaped by your past

Acknowledge me as a human being  
Look inside and find the love  
I don't understand the pain I feel  
Look inside and find the love

Fifteen going on forty, but nowhere near grown up  
Between a rock and a hard place the situation sucks  
You aren't the first to be there, you sure won't be the  
last  
Catch 22, your future shaped by your past  
You're a Winner, a loser, a glory confuser  
Sometimes you wanna be all alone, don't be such a  
loser

Acknowledge me as a human being  
Look inside and find the love  
I don't understand the pain I feel  
Look inside and find the love

I recognize your struggle I see through your pleading  
eyes  
Camouflaged by an anxious smile your pain identified  
It looks like the end of the world is here for you  
Now you're thinking about eternal rendezvous  
But listen to me please, don't kill yourself today  
Be strong, I know you'll pull through someday  
It's gonna get better someday you won't have to cry  
It's gonna get better you don't have to die.
