Come with me lets go to the sea
And try to find our melody
Come with me IÂ'll take you there
And draw your mood in the sand

Feed me with your tenderness
Your love your hopes your happiness
In your brown eyes I can see
Your dreams your blues a mystery
Feels like IÂ'm sailing to the moon

IÂ'm on the Love Train
And I know where IÂ'm going
IÂ'm on the Love Train
Kind of speeding up for life
I surrender cause I know how much I love you
YouÂ're like a star
