I wish I could define  
all the thoughts that crossed my mind.  
They seem too big for me to choose,  
and I don't know which ones to use.  
When I'm falling down so far, and  
think I'll never see your light  
bouncing off of me with shadows  
I see from your eyes.

Chorus.

Help me figure out the difference  
between right and wrong, weak and strong  
and day and night where I belong.  
Help me make the right decisions  
and know which way to turn, lessons  
to learn and just what my purpose is here?  
It's like I got the signals crossed  
with messages I can't decode.  
Half asleep and I'm wide awake  
in a complete over load.  
I've got so much information here  
and nothing I can really grasp.

I should know the truth but I'm  
too afraid so I have to ask.

Chorus

Help me figure out the difference  
between right and wrong, weak and strong  
and day and night where I belong.

Help me make the right decisions  
know which way to turn, lessons to learn  
and just what my purpose is here.

I want to know you,  
more than anything,

I will meet you,  
in my every dream

your there for me,

you'll love me

for who I am:

no angel

just an ordinary man.

Help me figure out  
why I'm stuck in the middle

trying to understand why

I can't process such a riddle

got my eyes crossed

from thinking so hard and I know I'm missing the mark.

Can you help me sort out all of this information

I'm just racking my brain paying attention  
but I'm still lost and at all costs I gotta know,  
gotta know.

Chorus

Help me figure out the difference  
between right and wrong, weak and strong  
and day and night where I belong  
and help me make the right decisions  
know which way to turn, lessons to learn  
and just what my purpose is here

Help me figure out why I'm stuck in the middle  
I'm just racking my brain paying attention
