"Little Girl"

Visit "[Little Girl](#)" on MotoLyrics.com

Don't bring me down, little girl - little girl
It's gone too far, little girl - little girl
The things that you've said have gone right to your
head

Don't bring me down, little girl - little girl
Love's gone too far, I'm falling like a shooting star
Don't bring me down, little girl - little girl
Mm, say, don't bring me down, little girl - little girl

Since we've been together, little girl - little girl
Through all kind of weather, little girl - little girl
Things can go wrong when they go on too long
Don't bring me down, little girl - little girl
??We've our fortune and we've twice the fun??
Don't bring me down, little girl - little girl
Oh no, say, don't bring me down, little girl - little girl

It looks like we're coming to the end - little girl
Parting is just around the bend - little girl
It's too late to make up, now we're gonna break up
Don't bring me down, little girl - little girl
You won't be crying and I won't be sighing
Don't bring me down, little girl
Mm, say, don't bring me down, little girl
Oh, no, no, no, no

Don't bring me down, little girl - little girl
It's gone too far, little girl - little girl
The things that you've said have gone right to your
head
Don't bring me down, little girl - little girl
Love's gone too far, shooting like a shooting star
Don't bring me down, little girl - little girl
Oh, no, no, no, don't bring me down, little girl - little girl
Baby, don't bring me down, little girl - little girl
Everybody, don't bring me down, little girl - little girl
