How long was I asleep?

When did we plan to meet?

Have you been waiting long for me?

When did the sky turn black?

Do you still want me back?

I'll pick it all up piece by piece.

Chorus:

And the wheel goes round and round

And the flame in our souls, It will never burn out

And the wheel goes round and round

I am a river with a voice

I came into your life by choice

And none can judge the way that feels

You are a messenger from God

You are the angel i forgot

And none can say it isn't real

I'm not looking for your answers

Oh, darlin', don't you see

That just to know the question

Is good enough for me

Take up the hearts you came to heal

Put down your dagger and your shield

You need hide nothing now from me

I see the essence of the man

I stand before you as a friend

The truth moves through us

Even when we sleep
