I can see you clearly  
My visions twenty twenty  
They say life isn't perfect  
But with you I know it can be  
It's so easy to picture  
You and I together  
You think you got it good now  
but I can make it better

Don't look back  
Just look ahead of you  
Love is in front of you  
We can be incredible  
Wish you could see me like I see you  
Well here's to wishing

I know I can be everything you've been waiting on  
Forget them other guys cause they're all wrong  
Tell me who will be there when they're all gone  
I was thinking that  
Maybe I can be the one

I can be everything you've been waiting for  
You're not going to meet those other guys any more  
Imma be right here when they're all gone  
I was thinking that  
Maybe I can be the one

I don't think you see me  
I'm still a little blurry  
Sometimes even the good thing can look a little hazy  
Try a little harder  
We can go farther  
I can do things the other guys wouldn't bother

Don't look back  
Just look ahead of you  
Love is in front of you  
We can be incredible  
Wish you could see me like I see you  
Well here's to wishing

I know I can be everything you've been waiting on  
Forget them other guys cause they're all wrong  
Tell me who will be there when they're all gone  
I was thinking that  
Maybe I can be the one

I can be everything you've been waiting for  
You're not going to meet them other guys any more

Imma be right here when they're all gone  
I was thinking that  
Maybe I can be the one

Think of what could be  
if it were you and me  
if you're sick of love  
I promise that I'll be your remedy

Think of what could be  
if only you were here with me  
if you're sick of love  
I promise that I'll be your remedy

Don't look back  
Just look ahead of you  
Love is in front of you  
We can be incredible  
Wish you could see me like I see you  
Well here's to wishing

I know I can be everything you've been waiting on  
Forget them other guys cause they're all wrong  
Tell me who will be there when they're all gone  
I was thinking that  
Maybe I can be the one

I can be everything you've been waiting for  
You're not going to meet them other guys any more  
Imma be right here when they're all gone  
I was thinking that  
Maybe I can be the one

I know I can be everything you've been waiting on  
Forget them other guys cause they're all wrong  
Tell me who will be there when they're all gone  
I was thinking that  
Maybe I can be the one

I can be everything you've been waiting for  
You're not going to meet those other guys any more

Imma be right here when they're all gone  
I was thinking that  
Maybe I can be the one

I was thinking that  
Maybe I can be the one

Maybe I can be the one

Maybe I can be the one
