Look at the red red changes in the sky
Look at the separation in the border line
But don't look at everything here inside
And be afraid, afraid to speak your mind

It took a moment before I lost myself in here
It took a moment and I could not be found?
Again and again and again and again I see your face in
everything
It took a moment the moment it could not be found?

What's with the fascination with the Echelon
What's with the constant questions that you have this
time
What's with this circumstantial consequence
Find oversight before this night will ever rise again
It's all you've got inside your head, better get up and
leave instead

It took a moment before I lost myself in here

It took a moment and I could not be found?
Again and again and again and again I see your face in
everything
It took a moment the moment it could not be found?

To find ourselves lost here within we need reasons why
So we take this bridge with the other's that will thrive in
the great divide

Look at the red red changes in the sky

Again and again and again and again I see your face in
everything
Again and again and again and again I see your face in
everything

It took a moment before I lost myself in here
It took a moment and I could not be found?
Again and again and again and again I see your face in
everything
It took a moment the moment it could not be found?
