Do you tear under pressure?
On fire your tearing me apart
Do you change under pressure?
This love's become a war

Do you tear under pressure?
This Love's become a war
Do you tear under pressure?
This love's become a war

A thousand mistakes Heaven's made
Only a miracle could save you today
A thousand regrets Heaven's made
Only a miracle could save you today

Do you tear under pressure?
On fire your tearing me apart
Do you tear under pressure?
This love's become a war
