"Hey day"

Visit "[Hey day](#)" on MotoLyrics.com

Hey, you know, this shiver I've got, this shiver I've got,
it's part of a legacy
For all the times that I know, have never be good to me
But when you go and try to sort it out, I'm kind of
worried where it leaves me

Hey, how long can this go on, can this go on, I wanna
be free again
For all the days that I've known, the days that I've
known, will never return again
And when you go and try to sort it out
I'm kind of worried whether I'll be part of the world too,
part of the world too

Hey, you know, this shiver I've got, this shiver I've got,
it's part of a legacy
For all the times that I've known have never be good to
me
But when you go and try to sort it out
I'm kind of worried whether I'll be part of the world too,
part of the world too
