Well I was tied to your eye
My life wasn't mine anymore
I said: "Well all right, here we go"
We're all on a track and there's no way back

You know how I love to uncover
The secrets that wouldn't show
No myth lasts a life time I know
We're all on a track and there's no way back

Yeah, here is Simon the Ghost
From the past we all know
Not a glorious time

Yeah, here is Simon the Ghost, here at last
Whatcha know, maybe time to be on your way

It will be all right, you can come right in
I believe I tried every other thing
You can shoot me down, should this be your thing
There's a lot to lose and a lot to win
It will be all right, you can come right in
I believe we tried every other thing
It could be all right, it could be right in
I believe I tried, I believe I tried

Yeah here is Simon the Ghost
From the past we all know
Not a glorious time

Yeah, here is Simon the Ghost, here at last
Whatcha know, maybe time to be on your way, yeah
