"Situations Complications"

Visit "[Situations Complications](#)" on MotoLyrics.com

Life gets so much easier when you're stoned
Yeah, life gets so much easier on your own
It's hard to get down this medicine we call time
There's a lot of it and just me who's on the line

Situations complications
Situations no no no, complications

Life gets so much easier when you're stoned
Though it's hard to get down my medicine on my own

Situations complications
Situations no no no, complications

Life gets so much easier when you're stoned
It's hard to get down my medicine down my throat

Situations complications
Situations no no no, complications
