Isn't it nice

Sugar and spice

Luring disco dollies

To a life of vice

I could make a film

And make you my star

You'd be a natural

The way you are

I would like you on

A long black leash

I would parade you

Down the high street

You've got the attraction

You've got the pulling power

Walk my little doggy

Walk my little sex dwarf

We could make a scene

We'd be a team

Making the headlines

Sounds like a dream

When we hit the floor

You just watch them move aside

We will take them

For a ride of rides

They all love your

Miniature ways

You know what they say

About small boys

I'm in my Rolls Royce

Look it's so huge

It's big and it's gold

With my dumb chauffeur

Looking to procure

Run little doggy

Lure a disco dolly

Run my little sex dwarf

I feel so lonely

Get my little camera

Take a pretty picture

Sex dwarf

In a gold Rolls

Making it with the dumb chauffeur

Isn't it nice

Sugar and spice

Luring disco dollies

To a life of vice

Sex dwarf

Isn't it nice

Luring disco dollies to a life of vice

We could make an outfit

For my little sex dwarf

To match the gold Rolls

And my dumb chauffeur

We'll all look so good

We'll knock 'em cold

Knocking 'em cold

In black and gold

We can have playtime

In my little playroom

Disco dollies

My sex dwarf

And my dumb chauffeur

I would like you on a long black lead

You can bring me all the things I need

Sex dwarf

Isn't it nice

Luring disco dollies to a life of vice

Isn't it nice

Sugar and spice

Luring disco dollies to a life of vice
