I'm takin' to the bridge and there's a different country  
I'm bringing with me the people I know deep down are  
funky

Oh yeah we dap we got the juice it's on tap  
Never take the time to rewind all the weak crap  
Here take it it's yours the gift is calling  
The sunshine be falling our way first every morning  
I'm a magician you see I'm christened with condition  
Held over from a future would I've come to you so  
listen

There's a place out in deep space  
Where all the brothers dance and chant and rant  
And shave their heads like Buddha  
I'm a fly guy you know I'm smoother  
Of course no remorse is felt for all those loser crews

I do not care what you do, I always screw up  
But when I do it's nothing like you, I wish you grew up  
You're saying anything like promise to get clean  
Won't kick half dead fucked up in the head  
Just get him out of here  
Get him out of here  
Get him out of here  
He's making me sick

We push a sucker out  
With much force and much clout  
Didn't want to do it  
That's not what were about  
But we got to have a limit  
How low can you get it  
Seems about time to  
Change the subject  
And sing about the wise eyed  
That makes me feel  
Good and never do  
I leave misunderstood

Damn you know I feel good true  
I got a choice of what I'm gonna do It's like this that  
Swingin on my bat

Mix a melody with some back chat  
Tell 'em again  
Dam I know you feel good too  
You got a choice of what you're gonna do it's like this  
that  
Nippin' on a cat  
Mix a melody with some back chat

I'm rollin' slow no particular place to go so nothings  
changed  
The more things stay the same the more it doesn't  
matter  
To a latter day St. Bernard acting hard  
But I throw down like a crazy retard  
But what cold make a man  
Wanna walk around the school yard with his tool hard  
What could make the switch to call that girl a bitch  
It probably downed when you couldn't get a date to the  
prom  
And you were stuck with Beavis  
Let's leave us on a note of positivity  
I'm saying this for levity  
But if I leave it brief I call it brevity  
I said I see the people rocking  
Which means there's no stopping the flow  
And you can just tell 'em that you know

Every night yeah we turning up  
And comin' off live  
Like and final 311 battle breakin idols  
On the one you never heard before  
You know the hardcore rockin  
Pumping the dance floor  
Leave ya feet sore lookin for your Micatin  
Cecause the mic is deadly int he mood we in  
Certified not fakin cool like a Jamaican  
Every time the enemy hear us they will be shakin'
