I'm in a good way, on a bad day  
Thinking of a plan a way to stay on top of it  
Nailin' in I have a fit if I sit, sit doin' nothin'  
Which is what I've done so far  
But I carve a niche which sits in my good things brain  
Layin' the tracks to Nirvana I wanna mess it up

Chorus:

Tabla Rosa is my brain  
Don't have to guess just what I'm sayin'  
Don't mean to bug or drive you insane  
If I had a point, I'd say it plain

Oh, dammit my brain is blank  
And now I say it would be a lie  
If I said I was inspired by nothin' to say but that's ok

Nod your head to this  
In a way I'm gettin sick of this  
??  
I insist it's a travesty so sad to see  
The scene dictated frustrated former musicians  
Switchin' the emphasis from art to money  
But man I demand autonomy what else huh?  
I tell you what's wrong with me  
The industries ability to manufacture stars  
They churn them out like Japan makes cars  
But the blame lies not with those suits for tryin'  
It's the sheep that keep on buyin' that soulless crap  
Whatever they put in front of ya  
The hysteria of America

Nod your head to this  
Well, stress is the enemy and not a friend to me  
One thing I see is easy goin' throwin' down sit back  
And watch my life flowin' and knowin' life is but a  
dream  
You can ask my home team  
Let me tell you how I seem  
My economy seems to be in words not action actually  
ya see yes

I'm a tempest and I rarely rest but that's what you go to  
do  
If you want to be the best so I'm on a threshold so don't  
tell me no  
I just flow and know I can count on my bros

Tabla Rosa is my brain  
Don't have to guess just what I'm sayin'  
Don't mean to bug or drive you insane  
If I had a point, I'd say it plain

Oh, dammit my brain is blank and now I say it would be  
a lie  
If I said I was inspired nothin' to say but that's ok

Nod your head to this  
Don't you know the devil is in me  
And God she is too  
My Yin hits my Yang  
But what the heck ya gonna do

I choose a rocky ass path but that's how I like it  
Life's a bowl of punch go 'head and spike it
