Long time did I run down like that  
I would have three years ago-today but not now  
It's not like that

It's all right to feel good  
It's all for nothing to be wrong  
The deepest dream that we have  
Could be tomorrow's song

Long time did I run down like that  
I would have three years ago-today but not now  
It's not like that

It's all right to feel good  
It's all for nothing to be wrong  
The deepest dream that we have  
Could be tomorrow's song

Just what did he say stop  
1 and 2 and 3  
Run up the hill do as you do  
I'm going to chill you know you really  
Ought to do the same  
They wanna bug you  
But I won't let them today  
It's a sure shot to the bomb drop  
Every single  
You know you swing  
it and you fling it  
And you make some shit up but  
It's just 123 oh  
And you don't stop  
What you need guaranteed  
The deepest dream we have could be
