Chill, light on my sight as my ego becomes
A funky child with some words on my tongue
Be like intake of breath and my mouth gets loose
So while I scatter my spit, I dream of juice

Have you ever made out in dark hallways?
Displayed a kiss that made your day?
Or say, played a track from your record collection?
It's your mix congratulation

Changed a lot and then some, some
Know that we have always been down, down
If I ever didn't thank you, you
Then just let me do it now

I bet you light up when we start the show
Follow me now very closely 'cuz I told you so
You know, we glow because we throw sun-rays
Ya, we be freaky and we wanna stay, uh

Changed a lot and then some, some
Know that we have always been down, down
If I ever didn't thank you, you
Then just let me do it now

Lightning strikes to we be in that violent force of light
Guaranteed to turn it out as bad as dolomite
Because we're dope kid change like a chameleon
And the channel whenever that wack show real world is
on

You know we dazzle like ghetto box boomin' battles
Rattle inside your head feel redeemed like cola bottles
Fall in love with your teachers on the wax
We are self made, check the technique, 311 in L.A.

Changed a lot and then some, some
Know that we have always been down, down
If I ever didn't thank you, you
Then just let me do it now

Keep my feet on the ground

Keep my head in the clouds
Electrified by the sound
Comes from the down, and

We've changed a lot and then some, some
Know that we have always been down, down
If I ever didn't thank you, you
Then just let me do it now
