## "Always An Excuse"

Visit "[Always An Excuse](#)" on [MotoLyrics.com](https://MotoLyrics.com)

There's always an excuse when you need one  
There's always an excuse when you need one

A way, a reason for someone

There's always an excuse when you need one  
There's always an excuse when you need one

A way, tiptoe around the turncoat today  
Which mood is it gonna be today?

There's always an excuse when you need one  
There's always an excuse when you need one

There's always an excuse when you need one  
There's always an excuse when you need one

Always

Shut it down  
Get it right  
Cause a person can win if you don't even put up a fight  
Get it right  
Everyone has got something that keeps them awake in  
the night  
That's a fact  
Don't think of the times that you let up and gave out  
some slack  
Take it back  
Don't think your the only one goin' through it  
Take it back

There's always an excuse when you need one  
There's always an excuse when you need one

Always an excuse when you need one...
