Well everybody's got an opinion that's loud and unbending
I spend my time healing and mending, together
It's a question of whether live positive well I give
P-Nut joins our back, must be arthritic
Tim is from the '70's and so we live it
SA has the wisdom of a Nobel laureate
I'm down for our days of glory
It's easy to do when you're up with Sexton
A rhythmic genius, turnin' up the next one
Would you know, you're a bro, I flow in that circumstance
You'll get your chance

Because payback is a motherfuckin' mission
To the sharp-ass rocks slippin' on us but we rock
It comes to writing on us derision
Sendin' you a voice now we're sending you a vision

And those who fought me they say they taught me everything I know
I go awww, when I hear that, that chit and that chat, bullshit!
So sick of me knowing everything, saying!

In your face
That's right
And it feels so good
In your face
Yeah
It feels so good

Take it to 'em bro, throw down, now say
Settin' forth a course I'm really wiggin' out
In my dome I roam, no time to doubt
Fucked up you right there while I was rhymin'
Now you're sulking in the corner, a baby crying
Hittin' up now we feelin' to rock Mars
Fuckin' up the shit, now their heads bob
We ain't new to jack swing, the groove and that
We got crazy factiffs and we all that

I don't often rock and I'm a laureate
I don't pull the punch you know I'm throwin' it
Freestyles my style on the mic and flex
You're stalkin' the mind of a punk that's next

I get retarded now that I started you know
A condition which I keep close together
Like the kind buds you know my scene
My team thinks I sing supreme, but you, the weasel,
Try to bring us down but in reality it make you look like
a clown
Too bad cause we'll be sittin' in the sun and choose a
rocky ass fast ball

In your face
That's right
And it feels so good
Choose a lock y'all
In your face
Yeah
It feels so good

Yo P-Nut, beat that thing

Won't you warm the mic Nicholas
Can't get with this my stream of conscienceness is a sea
Much like Bukowski with a rage
Speakin' to page
Beasts in the cage
Jumpin' off the stage
Divin'
Thrivin'

Strive for a better day SA
Beat back by flesh
Shattered doors braggin' fists to the sky we're feelin'
high
Has to live and die

Just take a moment to have a fit once in a while
You know, you know
I do it daily and like it but that's my style, yeah, here I
go

In your face
And dow your throat
And it feels so good
'fraid so
Fuck it up y'all
In you face
And down your throat

It feels so good
That's all
