Come on' now Come on' and rock it
Come on' now Come on' and rock it
Come on' now Come on' and rock it
Jump to the beat and ?????? with me
Come on' now Come on' and rock it
Come on' now Come on' and rock it
Come on' now Come on' and rock it

Hey rock with me I freak out
To the A.C.I.D. house
With a new school twist bein kissed
But I make all desire to climb higher
On nothin but my own criteria
Steerin a van with the help of my brothers
In crime stayin right for my own time
How can you give a damn give a damn if you approve it
Its a battle

I just freak out (get up get up get up and rock it)
I freak out (get up get up get up and rock it)
Freak Out (get up get up get up and rock it)

Come on come on we'll come back slipped out
A whack as a master laid out the music

Dead by unsung blue shoe
The boy unknown with gone through
I've lost as much psychedelic trip we take
There's another more bizzare we have to make
Would we have no where beyond
Take out the earth the face is gone
My rocks and sand will fill the hole
How strange we should be here at all

If you don't have someone to do it with it's not worth
doin'
If you don't have someone to do it with it's not worth
doin'

Come on yo come on and rock this

Come on yo come on and rock this

Come on yo come on and rock this

Yeay

Into whose womb were you woven
And outta who's womb did you first bodies cloven
Light of daybreak blinded next exit
The wild darkness forming inside it

My day wasn't promised me each death it brings
reminding we
Are rumbling in this cursed universe where death is
birth
Think not but what your manifest is worth
Giving up a verse the worse the curse occurs a thirst
To burst first breaking to the center of the universe
Slamming down on the lingo flow so jam to the
bumrush single
Long ago has been become now when you find out
there's no break
In the rhythm
Black anima makes my stamina stand alone disown the
cinema farewell
To posing decades dozing comin up the steps of the
new
Screen rising scenes from the lost world shapes hard
to tell
Which is which as if drawn by a child holmes

If you don't have someone to do it with it's not worth
doin'
If you don't have someone to do it with it's not worth
doin'
If you don't have someone to do it with it's not worth
doin'

This is a heat to flush your face water
This is a heat to flush your face water
This is a heat to flush your face water
This is a heat to flush your face water

Come on freak out
