Now I know fools get their own when they chit chat
Haven't heard yet, but you can bet, I'm not with that
With that talk, with the digi walk
I stalk a bird, you heard, absurd word to the fact

I'm a cat livin', sittin' on the flask
Passin' it, talkin' shit, but only if you're ass
In front of me, 'cause you could run from me
But in the end revenge sends end to the defendant

I can't just get caught in the spiral, 'cause every bit of
energy
It goes to my survival out of my way
I'm a flicka flacka blotter, you try to find a weakness
But the shit keeps gettin' harder

Fourth of July with Lucy in Sky
I remember pine trees and the coat of many colors
I was nineteen, I'd do anything
Shit like that now scares me, but I'd like to do it again

It was Independence day
I've seen the other side and I say
Oh, I've been insane
And I won't ever be the same

'Cause we flow, we must be fly
First to flow Nickel my brother, so wise
And then I rise nigga, here's a ill kid pimpin', 'cause he
is so slick
Step's from darkness, his body electric

A drone buzzes the air, a cracklin' tone
Then boomin' like thunder in a cosmic jungle
Death defyin', like Knievel, he weeble
Words that will wobble, awkwards and evil

'Cause he flow and rock the hardest of the crowds
A marvel pow, how d'you like me now?
I've returned the kiss of death, the last Damien
From the abyss, the fresh eternal alien

Now famished from pathless way, I must do damage
To the wack MC's, I know you can't stand this
Right about now get down, I'm the annihilator
Rockin' with the rhythm of my rhyme detonator

Fourth of July with Lucy in Sky
I remember pine trees and the coat of many colors
I was nineteen, I'd do anything
Shit like that now scares me, but I'd like to do it again

It was Independence day
I've seen the other side and I say
Oh, I've been insane
And I won't ever be the same
