## "Mindspin"

Visit "[Mindspin](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Are you missing us  
maybe wanting to be kissing us  
and if you must, please don't be dismissing us  
and when we're gone, bailin' on the bus

Are we immersed in a sea of replicants  
hard exteriors and fake gold fronts  
loosing yourself in the flavor of the month  
gotta be a better reason to colonize a star  
gotta be a better reason man's come so far

Is that you in the mama-ocean-people-sea  
is that you in this dream as see waving at me  
closer with one hand, while the other shields your eyes  
as if surprised to see the universe begin

Being up on the mindspin  
are you still glad that it has been  
six years and seven months  
this is want you want, don't front  
I'm feelin' it right now  
in this, the gold hour  
part clock and part man  
reconciling my life span

Keeps things whole  
we move out of the space where air flows  
when all of a sudden  
here we are, and here we go

The evolutionary mind  
turns twist backflips  
in space-time the continuum  
real-life planetarium

It's a natural fact  
time is speeding up there isn't much left  
heart rate increasing

bustin' through your chest, compressed

Is your life in the physical

but out of memory  
comes a vision which is a miracle  
yeah, that

Normally we just can't see  
it's not natural or typical  
of our same old thing  
livin' too fast, unable to grasp the past  
or the future when at last we ripple  
after our big splash

Being up on the mindspin  
are you still glad that it has been  
six years and seven months  
this is want you want, don't front  
I'm feelin' it right now  
in this, the gold hour  
part clock and part man  
reconciling my life span

You remain  
and refrain  
from the pain  
of wasted time  
last thing on my mind is  
running high  
fuel supply  
reason why  
we just don't quit  
can you get with  
a melding of two minds  
what's the worst thing you could find  
a paper trail  
that prevails  
in demystification  
people  
want to believe  
in mysteries  
people  
want to believe  
in mysteries  
is the truth so bad?  
is the truth so bad?  
is the truth so bad?  
is the truth so bad?
