Whoa oh prisoner
My pretty, oh oh prisoner

A black ocean is the sky above
Tiny lights bob what star you from

Trapped in material plane
She wants to fly and they think she's insane
But she knows what she know
Give that girl wings and that's all she wrote

Twilight zone, twilight zone
I'm floating in the dark alone and
Is there any love out here
Let me know

A laser lights
It was the top of my dome
Then through my body as if Scotty's
Beaming up a wayward soul

Mutant races in an ancient universe
Dark shadows humans rhymin' in a reggae verse

It's gone if you blink
I can see it as soon as you think it
Calls crystal balls, on sidewalk malls
Psychic people outdoors reading palms

I believe that you know more
To survive the dimension is four

Oh oh prisoner
My pretty, oh oh prisoner

Look at the way she's searching
Trapped in a world that's hurting
So bad it makes her cry
But I won't let her say goodbye

Twilight zone, twilight zone
I'm floating in the dark alone and

Is there any love out here
Let me know

Twilight zone, twilight zone
I'm floating in the dark alone and
Is there any love out here
Let me know

No way, no way
