"Seal The Deal"

Now that I know what it's like to fall freely
I can taste blood for the ones who I envy
Trying to make it right, they won't catch me
Now that I know, just watch what I'll do

Watch me break
Watch me gently breakin' both our hearts
Watch me gently breakin'
Watch me gently breakin' our hearts

[chorus]
Now that I've sealed the deal
I don't know how to feel
Now that I know that it's for real
Just how am I supposed to feel?

What do you do when your mind won't reconcile
With the thing you are wanting to part by a mile
Trying to make them right like a sonnet
Neither one will give in so I'm down from it

Watch me fake
Watch me fakin' that I know just what to do
Watch me plainly fakin'
Meanwhile I've got a stake in a heart

[chorus x2]
