We are the wind and the sea  
Sun reflected you to me  
We are the moon and the stars  
Darkness hiding mystical heart  
We have just begun  
The dreams, the nightmares of everyone  
We are mysterious things  
Eternal, perpetual, and ending  
We are the yin and the yang  
The ending, the middle, and the big bang  
We are the zero and one  
The desert, the voice, and the ocean

I've one conclusion  
It's not illusion  
But it's creativity  
The supernatural thing that happens between you and  
me, yeah

Because it's magic  
Something out of nothing  
Magic  
Something out of nothing  
The paranormal became normal  
Every time you're through the door  
Don't care what they say  
That's what I'll say

We are silver and gold  
The eyes that see  
The hands that hold  
We are all you heard  
A whisper to scream every word  
You are everything  
Eternal, perpetual, and ending

I am a mystical  
The sweet science of seeing the whole  
We are creative  
Everyone of us is how we live, yeah  
We are positive  
Everyone of us is how we live

I've one conclusion  
It's not illusion  
But it's creativity  
The supernatural thing that happens between you and  
me, yeah

Because it's magic  
Something out of nothing  
Magic  
Something out of nothing  
The paranormal became normal  
Every time you're through the door  
Don't care what they say  
That's what I'll say, uh

Magic  
Something out of nothing  
Magic  
Something out of nothing  
The paranormal became normal  
Every time you're through the door  
Don't care what they say  
That's what I'll say

Because it's magic  
Because it's magic  
Because it's magic  
Something out of nothing  
Don't care what they say  
That's what I'll sa
