Any different people can apply to drop the funk  
It's not a country club review board steady talkin junk  
Many people would have it others go put and grab it  
Some trip over toots and say fuck it I'm sunk  
I put it in a limerick and kick the slick nick verbs  
I am the one who scores the herb  
When we're on the road P-Nut rolls it up  
Throw me a joint on stage what's up  
I will tell a cop that I know my fucking rights  
And we can match wits all night for real  
He said if I had nothing to hide  
Then of course I wouldn't mind if he looked through our  
ride  
Uh, no I'd really rather you didn't  
And no we don't have guns hidden  
We stood there for a while continue to decline  
Firmly, I didn't lose my mind  
I didn't let him break me he's just another human  
Not a bit of shame in what we were doin' that day  
He couldn't make us stay  
We had our shit together  
It don't matter whether  
We sport the dread locks or a shaved head  
Or if we have a sticker from the dead  
I said a better verse rehearsed about the roughneck  
curse  
Last week I keep an even keel and bow in place  
And face the music every minute

Never could see my homey comin' till he passed  
Funky gas by my way all the day I couldn't laugh  
Oh by now I'm chill with it  
Bare ass in my face I'm ok but Chad's like "Uh-uh no he  
isn't"  
So I proceed to hear him get loose with the  
Fartin' all over my face sometimes my tummy  
He fucked with my flow although I thought it funny  
I probably wouldn't care if I smoked more kind bud  
But that wouldn't do me shit cuz then he'd fuck me  
more up  
Crazy ill and chillin' rude but I'ze a real cool dude

He didn't believe the day would come when he would  
get his top  
But then one day right in front of his face I got him  
He looked over said "God damn get me some water"  
The one time I hadn't wasted till I got mine  
Smear'd his nose with my armpit funk slime  
So you get it the picture just how sick we were then  
But before I jet "Hey yo Chad sniff my finger man"

I can see a lot of people who feel like I do  
I can see a lot of people who feel like I don't  
I go on step lightly even when I'm heavy  
High jump the slump open up fot eh Revy Horton Heat  
Sweet what am I displayin' forgot what I was saying  
I know I must be laying a pipe you got a gripe  
With the way I get high  
Graffix bong sing along with a cry of a  
Mandatory sentence for a crime with no victim  
When everyone knows jail terms should be picked in  
Order of the pain that they cause  
Do what thou wilt shall be the whole of the law  
Until you violate the rights of another  
Respect the space of your sister and your brother  
The war on drugs may be well intentioned  
But it falls fucking flat when you stop and mention  
The overcrowded prisons where a rapists gets paroled  
To make room for a dude who has sold  
A pound of weed to me that's a crime  
Here's to good people doin time y'all

Bare Ass Yeah x4
