The word that I heard was so absurd  
I can't believe it slipped from my lips  
The tongue from which it was sung was so dumb  
I wish to pull it from my skull

What the fuck was I thinking?  
What the fuck was I thinking?  
What the fuck was I thinking?  
What the fuck was I thinking?

What the fuck was I thinking?  
What the fuck was I thinking?  
What the fuck was I thinking?  
What the fuck was I thinking?

The word that I heard was so absurd  
I can't believe it slipped from my lips  
The tongue from which it was sung was so dumb  
I wish to pull it from my skull

What the fuck was I thinking?  
What the fuck was I thinking?  
What the fuck was I thinking?  
What the fuck was I thinking?

What the fuck was I thinking?  
What the fuck was I thinking?  
What the fuck was I thinking?  
What the fuck was I thinking?
