i'm still around..i'm still awake..
trouble may come, but i'll be brave..
whoever thinks i'm a loser
will get a punch from me...
coz i'm still around..
and i'm still awake..

it has to begin somewhere..
it has to start sometime..
but trouble may come in between
make no mistake..feel no regret

just push the button..
and i'll be alright

my weakness is my strength..
i will find my weakness..
to gain my strength..
the more i wait..the more i find..
i will find my weakness..
control my temper now..
control my anger now..
turn the table now..i will find my weakness..
