too small, too small don't compromise
so have fast, too fast don't realize
have hand on wheel, set the sights, drive with me
too fast, too fast don't realize
so have fast, too fast don't recognize
have hand on wheel, set the sights, drive with me
moving - motion
said move, said move it
somebody better come and drive me
big trucka
in't no grave gonna hold my body down
ain't no grave gonna hold, hold my body, hold my body
big truck, come on
