It's the darkest place

Like beneath the stairs

The "IT" it comes

And it takes everything in sight

All through the night

Leaving scars

And Crashing cars

Fiend for the fans and

Fodder for the press

Fiend for the fans and

Fodder for the press

It's my life

For everyone to see

For you a charade

For me a disease

Everything in sight

All through the night

Leaving scars

And fucking stars

Still reasoning my life

Fiend for the fans and

Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Still reasoning my life  
It's do or die!  
It's do or die!  
It's do or die!  
Not for me!  
Still reasoning my life  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Still reasoning my life  
Fucker
