Barricades and brickwalls won't keep me from you

You can tie me down on the railroad track

You can let that freight train lose

Iron bars and big old cars

Won't run me out of town

Well i'll be damned if you're not my man

Before the sun goes down

You can chain me down

On the edge of town

You can leave me there to die

But the railroad track

Will bring me back

When the lonesome whistle cries

Barricades and brickwalls won't keep me from you

You can tie me down on the railroad track

You can let that freight train lose

Iron bars and big old cars

Won't run me out of town

Well i'll be damned if you're not my man

Before the sun goes down

You can lock me out

You can scream and shout  
You can try to change your name  
But by the end of the day  
I'll take you away  
Like a force 10 hurricane  
Barricades and brickwalls won't keep me from you  
You can tie me down on the railroad track  
You can let that freight train lose  
Iron bars and big old cars  
Won't run me out of town  
Well i'll be damned if you're not my man  
Before the sun goes down
